## MARCH

### EMPLOYEE SPOTLIGHT!

# ALISON

*Registration  
Representative*

Alison joined SCP&SS in May of 2021. She says that working with our amazing and caring staff is one of the things she likes most about her job. She appreciates that her coworkers are always willing to help and point each other in the right direction!

Prior to joining SCP&SS, Alison was a Program Director at an assisted living community where she worked closely with dementia patients. With a degree in Gerontology and special focus in dementia, she feels passionate about making a difference in a person's end of life journey.

Alison has a love of photography and has been taking pictures since she was in 7<sup>th</sup> grade. She has had the opportunity to capture weddings, engagements, and family portraits. She also loves watching sports!

We are so happy to have Alison working as part of our front desk staff! Her caring and kind spirit is evident each day as she helps both her patients and coworkers with whatever they need. You will find her welcoming smile greeting you in any one of our offices so be sure to say hello!

### *Life Philosophy:*

*"The only person you should strive to better than is the person you were yesterday."*
